organisation for economic co-operation and development measuring productivity measurement of aggregate and industry-level productivity growth oecd manual

Measuring Productivity - OECD Manual

A developing country (or a low and middle income country (LMIC), less developed country, less economically developed country (LEDC), or underdeveloped country) is a country with a less developed industrial base and a low Human Development Index (HDI) relative to other countries. However, this definition is not universally agreed upon.

Developing country - Wikipedia

From the systematic review analysis, we were able to identify three main drivers of change for advancing education quality and student learning in developing countries (see Fig. 1).

What works to improve the quality of student learning in
